## Declaration on the usage of scientific dataset ‘3DHumans’

### Instructions on data privacy

The Center for Visual Information Technology, CVIT at the International Institute of Information Technology, Hyderabad, India is providing you scientific data that was recorded in our project “SHARP - Shape Aware Reconstruction of People in loose clothing“. The usage of the data is subjected to the restrictions named in this document. We are handling the individual data of our participants with utmost care and responsibility. We expect that you as members of the scientific community do the same.

This agreement shall be construed and interpreted in accordance with the India laws. The data is restricted to be used only for non-commercial research conducted at academic institutions and shall be used internally within your scientific institution for scientific purposes. You are not allowed to forward or distribute the data. The data should not be made publicly accessible. However, this data can be used by academic groups to learn models and release the model but not data. Additionally, you can publish the finding in the research papers by appropriately citing the following bibliographic reference. However, please appropriately blur the face region of the subjects while adding images in research documents.

Please **cite** the following paper while using this data in your research efforts:

```
@article{Jinka2022,  
  doi = {10.1007/s11263-022-01736-z},  
  url = {https://doi.org/10.1007/s11263-022-01736-z},  
  year = {2022},  
  month = dec,  
  publisher = {Springer Science and Business Media {LLC}},  
  author = {Sai Sagar Jinka and Astitva Srivastava and Chandradeep Pokhariya  
and Avinash Sharma and P. J. Narayanan},  
  title = {SHARP: Shape-Aware Reconstruction of People in Loose Clothing},  
  journal = {International Journal of Computer Vision}  
}
```

The participants have the right to withdraw their data from further use at any time. The International Institute of Information Technology, Hyderabad will inform you in such cases and there is compulsion at your end to erase specific data in such cases.

### *Confirmation*

I hereby declare that

- I will only use the data for the purposes indicated.
- I will use this data for purely academic research as per the terms of data release listed in this document.
- I work at an academic institute and have their consent for downloading and securely storing this data.

- I will not forward or distribute individual/personal data.
- I will block or delete withdrawn data from further use if I am told to do so.
- I will cite the above mentioned paper.
- I have understood the permissions and restrictions named above.
- I confirm that I have read the information form carefully. I was informed about the importance of data privacy.
